Alaska Communications Reports Third Quarter 2017 Results

-Alaska Communications reaffirms revenue and free cash flow guidance-

ANCHORAGE, Alaska--(BUSINESS WIRE)-- Alaska Communications Systems Group, Inc. (NASDAQ: ALSK) today reported financial results for the third quarter of 2017.

"Our sales performance in Business and Wholesale is consistent with our expectations and reflects a robust delivery funnel that gives us visibility into revenue for the quarters ahead. We posted growth in both Total revenue as well as Business and Wholesale revenue, and continue to see growth prospects in the long-term as demand drivers like video streaming, wireless backhaul and cloud migration continue in their robust trajectory.

"Additionally, we are advancing our fixed wireless technology strategy. Fixed wireless provides a capital efficient mechanism to meet our CAF II deployment obligations as well as a strong foundation for competitive broadband to serve our mass market consumer and small business customers in non-CAF II areas. We look forward to reporting progress over the upcoming quarters," said Anand Vadapalli, president and CEO of Alaska Communications.

Laurie Butcher, Alaska Communications senior vice-president of finance, said: "Our results reflect uncertainty in the FCC's Rural Health Care Program causing a negative impact on revenue of \$0.7 million for both the quarter and year to date and on Adjusted EBITDA of \$1.5 million for the quarter and \$2.6 million year to date. While conservatively revising Adjusted EBITDA guidance, we continue to proactively manage operating expenses to mitigate the impacts. With our emphasis on capital efficiency through the course of the year, we are also reducing capital spending which will positively impact adjusted free cash flow. We remain comfortable with both our revenue and Adjusted FCF guidance levels for the year."

Non-GAAP Measures

In an effort to provide investors with additional information regarding our financial results, we have provided certain non-GAAP financial information, including Adjusted EBITDA, Adjusted Free Cash Flow and Net Debt. Adjusted EBITDA eliminates the effects of period to period changes in costs that are not directly attributable to the underlying performance of the Company's business operations and is used by Management and the Company's Board of Directors to evaluate current operating financial performance, analyze and evaluate strategic and operational decisions and better evaluate comparability between periods. Adjusted Free Cash Flow is a non-GAAP liquidity measure used by Management and the Company's Board of Directors to assess the Company's ability to generate cash and plan for future operating and capital actions. Adjusted EBITDA and Adjusted Free Cash Flow are common measures utilized by our peers (other telecommunications companies) and we believe they provide useful information to investors and analysts about the Company's operating results, financial condition and cash flows. Net Debt provides Management and the Company's Board of Directors with a measure of the Company's current leverage position. The definition of these non-GAAP measures is provided on Schedules 4, 6 and 9 to this press release. Adjusted EBITDA and Adjusted Free Cash Flow should not be considered a substitute for Net Income, Net Cash Provided by Operating Activities and other measures of financial performance recorded in accordance with GAAP. Reconciliations of our non-GAAP measures to our nearest GAAP measures can be found in the tables in this release and on our website in the investment data section. Other companies may not calculate non-GAAP measures in the same manner as Alaska Communications. The Company does not provide reconciliations of guidance for Adjusted EBITDA to Net Income, and Adjusted Free Cash Flow to Net Cash from Operating Activities, in reliance on the

unreasonable efforts exception provided under Item 10(e)(1)(i)(B) of Regulation S-K. The Company does not forecast certain items required to develop the comparable GAAP financial measures. These items are charges and benefits for uncollectible accounts, certain other non-cash expenses, unusual items typically excluded from Adjusted EBITDA and Adjusted Free Cash Flow, and changes in operating assets and liabilities (generally the most significant of these items, representing cash outflows of \$7.7 million in the nine-month period of 2017).

Forward-Looking Statements

This press release includes certain "forward-looking statements," as that term is defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on management's beliefs as well as on a number of assumptions concerning future events made using information currently available to management. NonGAAP Measures:

The Company provides certain non-GAAP financial information, including Adjusted EBITDA, Adjusted Free Cash Flow and Net Debt. Adjusted EBITDA eliminates the effects of period to period changes in costs that are not directly attributable to the underlying performance of the Company's business operations and is used by Management and the Company's Board of Directors to evaluate current operating financial performance, analyze and evaluate strategic and operational decisions and better evaluate comparability between periods. Adjusted Free Cash Flow is a non-GAAP liquidity measure used by Management to assess the Company's ability to generate cash and plan for future operating and capital actions. Adjusted EBITDA and Adjusted Free Cash Flow are common measures utilized by our peers (other telecommunications companies) and we believe they provide useful information to investors and analysts about the Company's operating results, financial condition and cash flows. Net Debt provides Management and the Board of Directors with a measure of the Company's current leverage position.

The Company does not provide reconciliations of guidance for Adjusted EBITDA to Net Income, and Adjusted Free Cash Flow to Net Cash Provided by Operating Activities, in reliance on the unreasonable efforts exception provided under Item 10 (e)(1)(i)(B) of Regulation S-K. The Company does not forecast certain items required to develop the comparable GAAP financial measures. These items are charges and benefits for uncollectible accounts, certain other non-cash expenses, unusual items typically excluded from Adjusted EBITDA and Adjusted Free Cash Flow, and changes in operating assets and liabilities (generally the most significant of these items, representing cash outflows of \$7.7 million in the nine-month period ended September 30, 2017).

Adjusted EBITDA and Adjusted Free Cash Flow are not GAAP measures and should not be considered a substitute for net income, net cash provided by operating activities, or net cash provided or used. Adjusted EBITDA as computed above is not consistent with the definition of Consolidated EBITDA referenced in our 2017 Senior Credit Agreement and 2015 Senior Credit Agreements, and other companies may not calculate Non-GAAP measures in the same manner we do.

Adjusted EBITDA is defined as net income (loss) before interest, loss on extinguishment of debt, depreciation and amortization, gain or loss on asset purchases or disposals, income taxes, stock-based compensation, pension adjustments, net loss attributable to noncontrolling interest and expenses under the Company's long term cash incentive plan ("LTCl"). LTCl expenses are considered part of an interim compensation structure, which ended in 2016, to mitigate the dilutive impact of additional share issuances for executive compensation.

* Quarterly Adjusted Free Cash Flow fluctuates and should not be viewed as an indicator of annual performance. Onetime events, seasonality of capital spend and the timing of interest payments may result in negative Adjusted Free Cash Flow in one or more quarters.

NonGAAP Measures:

Adjusted Free Cash Flow is a non-GAAP liquidity measure and is defined as Adjusted EBITDA, less recurring operating cash requirements which include capital expenditures, cash income taxes refunded or paid, cash interest paid, amortization of GCI capacity revenue, and cash receipts and payments associated with the purchase of the North Slope fiber network and establishment of our joint venture with QHL. Amortization of deferred revenue associated with our interconnection agreement with GCI is excluded from Adjusted Free Cash Flow because no cash was received by the Company in connection with this agreement. Amortization of all other deferred revenue, including that associated with other IRU capacity arrangements, is included in Adjusted Free Cash Flow because cash was received by the Company, typically at contract inception, and is being amortized to revenue over the term of the relevant agreement.

See Schedule 3 for Net cash provided by operating activities, Net cash used by investing activities, and Net cash used by financing activities.

See Schedule 5 for the reconciliation of net cash provided by operating activities to Adjusted Free Cash Flow.
